Capital Paid in by Municipality (Acct. 200) (Page F-12)

In 1999, an audit of the TIF District was completed. This audit identified numerous expenditures which had been paid for by the water utility in prior years which are eligible for TIF funding. These amounts will be repaid to the utility over a period of time which has not yet been determined.

1999 Analytical Review DWCCA-2140-PJL

Dear Ms. Pierce:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

In the footnotes for the Water Services schedule on page W-16, we noted that the utility explains that new water services were paid for by the utility. However, there is \$600 reported for Contributions in Aid of Construction for water services in column (b) of Account 271 on page F-17. Please explain.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege Financial Specialist Division of Water, Compliance, and Consumer Affairs
